MADE IN PORTUGAL

Eco-friendly by nature

AMORIM CORK FLOORING IS THE LARGEST CORK-BASED FLOORING COMPANY IN THE WORLD.

The concept of sustainability is built in three axes: environment, economy and social impact.

Environment

No trees are damaged or cut down during harvesting.

Economy

Cork harvesting is one of the highest paid agricultural jobs in the world. WWF estimates that more than 100,000 people are economically dependent of cork-related business activities.

Social Impact

The cork industry promotes settlement in areas at risk of desertification. Cork harvesting is an activity that crosses generations.

SUSTAINABILITY IS A CONCEPT THAT ONLY MAKES SENSE WHEN EVERYONE WINS: NATURE, ECONOMY AND PEOPLE. CORK PURE SIGNATURE PRODUCTS ARE DESIGNED TO EXPRESS THIS PREMISE.

| | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | PU PF** To provide a natural look and a soft touch, PU PF (pre-finished) is the right solution to be finished on site, but in a faster way due to the factory pre-applied coating. |
| | <input checked="" type="checkbox"/> | | XtraMatt+: High Resistance Acrylic UV finish suitable for residential and light commercial areas. It enhances the natural beauty and environmental friendly properties of cork floors, while assuring a high performance for a long time. |
| | <input checked="" type="checkbox"/> | | HRT: HIGH RESISTANCE TECHNOLOGY* Highly elastic resin, resulting on a natural and flexible surface with a superior wear resistance. HRT is micro scratch resistant, prevents color shading and wear resistance for heavy commercial areas and provides a warm and pleasant feeling on touch. |
